Daniel Perez

Software Engineer

SUMMARY

Creative, detail-oriented software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with interesting products and a broader reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

January 2023 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

BibiloTech (Fullstack Web App) – Users can log in and input the books they are currently reading, plan on reading, or want to read. They can create their own account, update their reading progress, and delete books they no longer want to read.

Personal Blog (Fullstack Web App) – Users can log in to their profile and find their list of blog posts. They can add new posts through input and edit or delete all notes in their profile.

Other Projects: Los Angeles Bookworm Personal Library, Los Angeles StarGazers Society APOD Web App with NASA API integration, MovieServ integrated with Watchmode API, and many more

Full Stack Web Developer at DanDevelopsWeb Consulting | Los Angeles, CA

November 2022 — Present

Created full-stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Some clients included:

Actual Client – Chirley Fernandez (igorsoccercoach.com)

Site Manager at Curative Inc. | Santa Monica, CA

February 2022 — December 2022

Healthcare professional under Curative, a leading COVID-19 testing and vaccination services provider.

VOLUNTEERING

Code For America Los Angeles Brigade (Hack for LA) | Los Angeles, CA

July 2022 — Present

Help build products and services with community partners and local government to address issues in our LA region and to share these effective processes, practices, and codes with the larger civic tech community.
